35 U.S.C. § 112, Second Paragraph Rejections

The Examiner has rejected claims 6, 7, 15-17, 19-22, 24, 67 and 68 under 35 U.S.C. § 112, 2nd paragraph has allegedly being indefinite. Applicant traverses these rejections.

Claim 6: The Examiner argues that "a switching circuit which is disposed between a power source terminal of the level conversion core circuit and the second power source" is indefinite. Applicant has amended to the claim to further clarify the claimed invention.

Regarding the Examiner's reference to the "first" power source, Applicant disagrees with the Examiner. Please refer to page 37 which provides support for the claim.

Claim 15: Applicant has amended claim 15 to address the Examiner's indefiniteness rejection.

Claim 17: The Examiner argues that "a GND power source" is indefinite. Applicant respectfully disagrees. A GND power source is not the same as the power source **terminal** of the level conversion core circuit.

Claims 19, 22, 24 and 68: Applicant has amended these claims to address the Examiner's indefiniteness rejections.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
